Cable cutter VDE HUPtriCut

- for cutting copper/aluminium cables, fine wire, multiple-core and solid copper
- Chrome vanadium steel, dip-insulated handles
- insulating function in upper head area
- Cable measuring function thanks to the 180 degree crossover of the legs
- not for solid conductors

Art. 211225 (Art. 211223)

- Data, telephone and control cable, maximum Ø 8 mm (Ø 12 mm)
- Cu single wire, maximum 16 mm² (16 mm²)
- Cu fine wire, maximum 16 mm² (35 mm²)
- Cu multi-wire, maximum 16 mm² (25 mm²)
- Al single wire, maximum 16 mm² (25 mm²)
- Al multi-wire, maximum Ø 8 mm = 16 mm² (25 mm²)

Cable cutter with a snap

- One-handed cable cutters for fine wire cables only
- Low force required
- CNC-ground cutting
- Inductively hardened blades
- Adjustable screw joint
- Cu fine wire cable, maximum Ø 16.9 mm = 70 mm²

Art. no. 201002
70 mm² / Ø 16,9 mm

Replaces entire open wrench set! Thanks to the parallel jaws, screw edges are not damaged!

Pliers wrench VDE

- Stepless gripping of all wrench widths thanks to the parallel jaws
- Easy tightening and releasing of screw connections
- Weight-reduced for very light working that is gentle on the joints
- Secure setting of the gripping jaws prevents the joint slipping through
- Gentle on surfaces thanks to the smooth, polished gripping surfaces
- 10-fold manual force amplification for very high clamping force
- With comfortable single-hand adjustment pushbutton
- With finger clamp protection for safe working
- Chrome-vanadium tool steel ensures high durability and a long product life
- Individually tested acc. to DIN EN IEC 60900 for working safely on live parts

1000 V IEC 60900

PLIERS AND WRENCH IN ONE
Gripping | Holding | Pressing | Bending workpieces

These 3 pliers wrenches are new in our portfolio for 2022. The VDE pliers wrench (art. 211224) and the pliers wrench from the basic program (art. 210619) are 260 mm long and replace wrench sets from 0 to 50 mm. The third model is the smaller and even more handy variant of the basic pliers wrench (art. 210615); it is 180 mm long and makes wrench sets of up to 36 mm.

Versatile, flexible, safe, light and gentle on the joints – make things easy and profit from the many benefits of our new pliers wrench!

Pliers wrench

- Stepless gripping of all wrench widths thanks to the parallel jaws
- Easy tightening and releasing of screw connections
- Weight-reduced for very light working that is gentle on the joints
- Secure setting of the gripping jaws prevents the joint slipping through
- Gentle on surfaces thanks to the smooth, polished gripping surfaces
- 10-fold manual force amplification for very high clamping force
- With comfortable single-hand adjustment pushbutton
- With finger clamp protection for safe working
- Chrome-vanadium tool steel ensures high durability and a long product life
- Handles in black/green soft dip insulated

Hand cable cutters Ø 34 mm

- Designed for cutting copper and aluminium cables according to DIN EN 60228
- Equipped with ratchet gear transmission
- Provides optimal force transmission
- Enables one-handed operation through optimal lever ratio and step-by-step cutting up to Ø 34 mm
- Release mechanism available in every cutting position
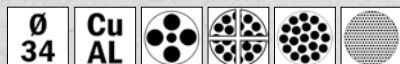

Material:
- All parts made from high-strength special steel, with hardened or tempered cutting edges and stressed components
- Burnished surfaces
- Ergonomically shaped soft handles
- Colour: black/green

Cutting range:
- Cables and insulated conductors according to DIN EN 60228
- Multi-stranded cables (Class 2; Class 5) copper up to 300 mm² (sector-shaped, fine-stranded, communication/data)
- Multi-stranded cables (Class 2; Class 5) aluminium up to 380 mm² (sector-shaped, fine-stranded, communication/data)
- Not suitable for steel or ACSR cables
- Clean the ratchet mechanism after use

Dimensions:
Length: approx. 260 mm | Width: approx. 100 mm | Depth: approx. 36 mm | Weight: approx. 600 g

200183-1 | Video

haupa.com

The new hand cable cutters, models 200089-1 and 200183-1, featuring ratchet gear transmission, are designed for cutting copper and aluminium cables according to DIN EN 60228, with diameters of up to 34 mm and 62 mm respectively. With their carefully calibrated lever ratio, these hand cable cutters ensure optimal force transmission, allowing for effortless step-by-step cutting with just one hand. These cable cutters are equipped with ergonomically shaped soft handles, providing a comfortable grip during operation. They also feature a release mechanism that can be used in any cutting position. All parts of the cutters are made from high-strength special steel. The cutting edges and other stressed components are either tempered or hardened, while the surfaces are treated with a burnished finish. **Our new hand cable cutters are suitable for fine-stranded conductors too!**

Hand cable cutters Ø 62 mm

- Designed for cutting copper and aluminium cables according to DIN EN 60228
- Equipped with ratchet gear transmission
- Provides optimal force transmission
- Enables one-handed operation through optimal lever ratio and step-by-step cutting up to Ø 62 mm
- Release mechanism available in every cutting position

Material:
- All parts made from high-strength special steel, with hardened or tempered cutting edges and stressed components
- Burnished surfaces
- Ergonomically shaped soft handles
- Colour: black/green

Cutting range:
- Cables and insulated conductors according to DIN EN 60228
- Multi-stranded cables (Class 2; Class 5) copper up to 480 mm² (sector-shaped, fine-stranded, communication/data)
- Multi-stranded cables (Class 2; Class 5) aluminium up to 480 mm² (sector-shaped, fine-stranded, communication/data)
- Not suitable for steel or ACSR cables
- Clean the ratchet mechanism after use

Cable stripper Kabifix

- For cutting opening and stripping cables from Ø 6 – 25 mm
- Longitudinal and round cut
- Ø 6 – 28 mm • NYY 4 – 16 mm² • NYM 5 – 16 mm²
- Coaxial and bell round cable
- Isoflex and PVC piping maximum Ø 25 mm
- Interior adjustment screw for adjusting the cutting depth
- Exchangeable blades

Cable stripping knive

- For removing the sleeve from all current round cables
- Blades, titanium nitride coated, thanks to the higher cutting speed
- Lower wear, increased durability
- Cutting depth can be adjusted using the setting screw on the end of the handle
- Automatic adjustment to round and lengthwise cuts
- Handle security thanks to soft component insert on the bar and handle
- Titanium nitride coated replacement blade in the housing
- Housing made from high-quality, hard wearing polyamide
- With titanium nitride coated hook blade

Video 200031

haupa.com

Stripper All-rounder

- Cable stripper for round cables from Ø 4 – 15 mm and flat cables up to 15 mm width
- Stripping 1.5 – 2.5 mm² single wire
- Lengthwise cut

Universal stripper

- Stripper for removing the sleeve from all current round cables Ø 8 to 13 mm
- Removing the insulation on various cable types, e.g. NYM 3 x 1.5 mm² to 5 x 2.5 mm²
- Contoured blades for stripping wires 0.2 – 0.3 – 0.8 – 1.5 – 2.5 – 4.0 mm²
- Ideal for working in distribution and junction boxes
- Longer cable lengths can be stripped using the lengthwise cutting mechanism
- Safe hold thanks to the inclusion of anti-slip handle zones
- No need to set blades required to cutting depth
- Additional titanium nitride coated retractable blade

## Smart Battery powered crimping tool SO-6

Hydraulic for interchangeable dies, crimping head 180° swivelling, Head can be opened, manual return flow after perfect pressure.

Extent of supply:
1 crimping tool,
1 charger,
1 battery,
1 strap,
in SysCon stacking box SysCon M art. 220372 without inserts.

Technical data:
- Pressing force in kN: 60
- Working pressure in bar: 700
- Head can be opened yes
- Opening/ Hub: 17 mm
- Pressing width: slim
- Pressing time, battery-operated in seconds: ca. 5
- Battery charging time in minutes: 30
- Battery type: Li-Ion, 18 V, 2 Ah
- <u>Cable lugs:</u> standard Cu 6-300 DIN Cu 6-300 • DIN Al 16-300
- <u>Connectors:</u> Cu 6-300 DIN Cu 6-300 • DIN Al 16-300
- Dimensions: 383 x 75 mm
- Weight in kg: 3,0
- Weight of set in kg: 7,1

Cable pulling device
HAUPA PullTec

with special plastic coating, M5 thread and probe, in durable plastic housing, colour: black

Single Composite

4,0 mm, green

• Breaking load: 300 kg

The advantages of the HAUPA PullTec at a glance:
• Material: Coated with a special plastic
• Slides very well and is highly elastic
• Low friction
• Does not break or bend
• M5 thread
• With probe
• In durable plastic housing

Decoiler 1200

The front and the rear sides are made of anodized aluminum with antiskid ribs. For the left and the right side, sink steel with powder coating has been used. Because of this construction, the decoilers are strong, flexible to use, and resistant against heavy circumstances. The roles have bearings and a sliding axis, which make it easy to change the position of the roles without any special tools. Four antiskid buffers ensure that vibrations are subdued and floors remain intact.

Technical data:
Length: 610 mm
Width: 570 mm
Height: 115 mm

Drum/width: 560 mm
Drum-Ø: 1200 mm
Drum/kg: 175

Art. no. 143400
Weight: 9 kg

LED flashlight, HUPflash1000

- Rechargeable
- Dimmable
- Zoom function

This flashlight is your compact partner for any application where professional lighting is needed.
The flashlight features Twist-Focus technology, allowing you to adjust the light beam by twisting the head. The button enables dimming from 100%, to 50%, and 25%. Enjoy flicker-free, cool white light that reaches up to 100 meters.
Waterproof (IPX7) and powered by a rechargeable lithium-ion battery via a supplied USB cable (USB-C). The battery is a standard commercial cell (18650) and can be easily replaced.

LED flashlight, HUPflash800

- Streamlined and compact design
- Strong magnets
- Versatile

Our mini flashlight, specially designed to meet your lighting needs, features three different modes: High mode 500 lumen, Low mode 100 lumen, and Top-LED mode for 150 lumen, as well as the Boost mode: Unleashes a powerful 800 lumen boost by pressing and holding the button (3s).

With its sleek, compact design, aluminium housing, and features such as a base and a clip magnet, it effortlessly adapts to your needs and is ideal for use in industrial and trade applications.

The reliable battery lasts approximately 1.5 hours, eliminating the need for frequent recharging or battery replacement.

Experience simplicity through one-button functionality and efficient charging, ensuring your mini flashlight is always ready for the next job.

LED charging station HUPlightWLcharger

- Charges two devices simultaneously
- Works with compatible mobile phones
- IK08 impact resistance
- Strong magnets on back side enable easy mounting on magnetic surfaces and integrated screw holes for permanent mounting

Specifications:
- Material: ultra-hard nylon, aluminium, rubber, PC and TPE
- Power adapter: Input: 100 – 240 V~ 50/60 Hz, 0.8 A
  Output: 5 V DC, 3.0 A 20 W max.
  USB charging cable: USB-C to USB-C x 1 m
- When charging with the wireless pad:
  Charge time: approx. 3.0 – 8.0 hours depending on battery pack - the ambient temperature affects the charge and discharge time of the battery
- Operating temperature: -5°C to +30°C
- Charging station dimensions: 265 x 110 x 29 mm
- Net weight: 330 g (not including packaging)

Contents:
- USB power adapter:
  Input: 100 – 240 V~, 50/60 Hz, 0.8 A
  Output: 20 W, 5 V DC 3.0 A

Magnetic lamp holder

- Holder for affixing working lamps
- Suitable for Item Nos. 130344, 130346, 130352
- extra strong magnet for flexible mounting

NEW

LED construction site lamp HUPlight5200hybrid

- Compatible with 18 V battery systems from Bosch, Makita, Milwaukee, DeWalt, and CAS (Metabo), corresponding adapters included
- 230 V AC or 18 V DC operation with emergency light function
- Designed and certified for use on construction sites, both indoors and for temporary outdoor use

This versatile hybrid (230 V & battery) work light is specially designed for professional craftsmen, mechanics, and construction workers who are often on the go. It comes equipped with a battery holder suitable for 18 V batteries from **HAUPA, Makita, Dewalt, Milwaukee, Bosch (AMP Share), Metabo (CAS)**.

The corresponding adapters are included, eliminating the need to purchase an additional battery system.

The work light is dimmable in two stages (50%, 25%), has a cool white colour temperature (5,000 K), and a colour rendering index of RA >90. The operating time ranges from 2.5 to 9 hours (based on an 18 V/5 AH battery), depending on the selected light output mode. The opal diffuser reduces glare from the 5,200 lumen strong light source and ensures homogeneous illumination of the workplace.

The housing and front diffuser are made of impact-resistant polycarbonate (IK08). The light is dust and splashwater protected thanks to the sturdy battery cover (IP54).

This work light is equipped with technology that prevents overheating and deep discharge of the battery.

The batteries must be charged with the manufacturers' charging stations and are not included.

In addition to batteries, the work light can also be powered by the included 5 m long connection cable H07RN-F 3G 1.5 mm². This work light is equipped with a socket (max. 3000 W), allowing the connection of another light, power tool, or other device,

eliminating the need for additional extension cords.

Safety: In the event of a power outage, this work light automatically switches to battery operation within approximately 0.5 seconds, ensuring you never sit in the dark and minimizing the risk of injuries and damage.

Domed luminaire HUPlight50combi

- integrated Li-Ion 7.4 V / 6.6 Ah battery
- **50 watt LED**
- extremely resistant housing made of highly impact-resistant plastic
- for indoor and outdoor use, protected against splashing water according to IP54
- Extremely bright illumination, colour temperature 6500 K
- Brightness 4000 Lm
- Colour rendering 90 CRI
- Variable light output, 50% | 100%
- Operating time:
  - Approx. 2 hours with 100% light output
  - Approx. 4 hours with 50% light output
- Charging time approx 2.5 hours
- 2x earthed sockets: 220 – 240 V~AC | Max: 3000 W
- Charging/power source of external / other devices
- Cable: 5 Metre H07RN-F 3G1.5mm²
- Hook for mounting and hanging up
- Carrying handle
- Dimensions: Ø 280 x 260 mm

HUPlightStripe

CRI 90

Ideal for illuminating building sites, especially building shells! The LED light strip can be simply suspended from the ceiling, e.g. with cable ties, and illuminates the work area evenly. Durable and unbreakable, and can be used without any annoying tripods. Can be stowed away as tidily and compact as a cable drum.

Adjustable cable clip with adhesive socket

Material: Polyamide 6.6, halogen-free, UL94V-2, **for fast and secure attachment of the HUPlightStripes, all 0.5 m.** With high-quality 3M adhesive pad (adhesive capacity 2 kg on smooth and grease-free surfaces), easy to open and close, reusable thanks to screw hole for drill attachment, colour: natural and black, dimensions: 90 x 12 mm, **contents: 100 units**

LED light strip HUPlightStripe15

- Operating voltage: AC 220 - 240 V 50/60 Hz
- Connected load: 180 W
- Colour: neutral white 4000 K
- 180 LEDs per metre
- Total length 15 m + connecting cable 2,5 m
- Can be extended up to 100 metres by means of plug or screw connections
- 120° radiation angle
- Colour rendering index CRI > 90
- Brightness (luminous flux) 19500 Lm
- Protection class 2
- Also for use outdoors IP65
- Light strip must be completely unrolled before use
- Dimensions light strip: W 16 mm x H 8 mm
- Dimensions drum: W 286 mm x D 210 mm x H 338 mm

LED Renovation Light HUPlightEasy

NEW

The Renovation Light HUPlightEasy is the quick, affordable, and uncomplicated solution for illuminating construction sites, vacant apartments, storage rooms, etc.

- Impact-resistant polycarbonate housing
- Spring clips
- Lifespan 25,000 hours
- Renovation light including built-in LED bulb with opal diffuser
- Emits neutral white light
- Beam angle of 160 degrees
- 14 cm connection cable, hanger, and spring clip for easy and fast installation without tools
- Lamp body made of impact-resistant polycarbonate and withstands fall heights of up to 2.5 m
- Suitable for use at temperatures from -20 to 45°C.

**Note: Renovation light is NOT intended for installation in luminaries.**

Deep-hole marker 2-in-1 with a sharpener

One pen – two functions
With a cap: Retractable pencil for precise marking and writing
Without a cap: Deep-hole marker for drilling and installation tasks

- Very stable, with a practical clip
- Sharpener integrated into the push-button
- Graphite universal refill for marking on rough and smooth surfaces
- Ergonomic, triangular form
- Preserves resources and is environmentally-friendly
- Designed for various refills for almost all surfaces and materials
- Refill Leads Art. no. 150045
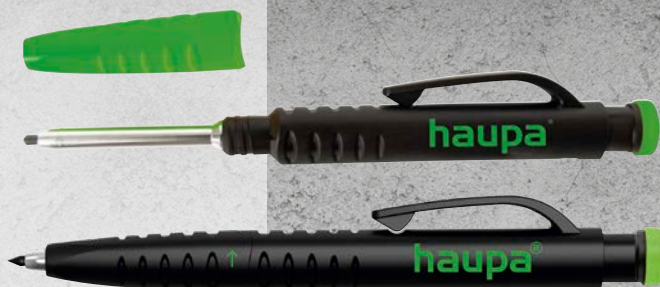

2in1

Refills, graphite universal

- Suitable for deep-hole marker Art.No. 150044
- Refills in a dispenser, 6 units

Fitter's hammer with 3-component handle

Art. no. 180214	Art. no. 180218
Weight 300 g	Weight 500 g

Art. no. 180222
Weight 1000 g

Vibration-free fitter's hammer with 3-component handle.
The hammer head with the forged safety collar according to DIN 1041 and rubber protection sheath is secured mechanically in the handle with a heavy steel wedge. The high-safety handle comprises 3 components that are permanently connected to one another! The inner core is made of an aluminium alloy. A polyamide plastic (A2800) that is ultra-resistant to oils and solvents and also the non-slip rubber handle are moulded around this.

Benefits:
- Shock-absorbing, therefore gentle on the joints
- High-safety handle is indestructible
- The handle is permanently connected to the hammer head
- Non-slip handle allows ergonomic and safe work
- Highest possible level of safety

Club hammer with 3-component handle

Art. no. 180301
Weight 1000 g

**Vibration-free club hammer with 3-component high-safety handle.**
The hammer head with the forged safety collar according to DIN 6475 and rubber protection sheath is secured mechanically in the handle with a heavy steel wedge. The high-safety handle comprises 3 components that are permanently connected to one another! The inner core is made of an aluminium alloy. A polyamide plastic (A2800) that is ultra-resistant to oils and solvents and also the non-slip rubber handle are moulded around this.

Benefits:
- Shock-absorbing, therefore gentle on the joints
- High-safety handle is indestructible
- The handle is permanently connected to the hammer head
- Non-slip handle allows ergonomic and safe work
- Highest possible level of safety

Soft-faced hammer with 3-component handle

Soft-faced hammer with 3-component high-safety handle and steel middle element.
Ideal for firm yet gentle hammering during installation work, alignment and attachment. White polyamide inserts are connected to the middle part by means of a dual-locking attachment system; this guarantees absolute safety at work. The inserts can be replaced and ordered separately. The high-safety handle comprises 3 components that are permanently connected to one another! The inner core is made of an aluminium alloy. A polyamide plastic (A2800) that is ultra-resistant to oils and solvents and also the non-slip rubber handle are moulded around this.
**Note: Not recoil-free!**

Benefits:
- Shock-absorbing, therefore gentle on the joints
- Dual-locking attachment system of the polyamide inserts
- High-safety handle is indestructible
- The handle is permanently connected to the hammer head
- Non-slip handle allows ergonomic and safe work
- Highest possible level of safety

Plastic corrugated tube cutter

For cutting plastic corrugated protection tubes. Body made of magnesium pressure cast, very lightweight and durable.

Two cutting systems:
• Cross-section
with two four-blade knives. System with a service life that is four times longer, thanks to four-way adjustment of the blade of 90°. Tube guidance system for perfect positioning of the tube when cutting; blades lie protected in the body, which prevents damage of the blades and injury to the user.

• Longitudinal cut
with one four-blade knife. System with a service life that is four times longer, thanks to four-way adjustment of the blade of 90°. Blades lie protected in the body, which prevents damage of the blades and injury to the user. Tube contact surface for better guidance of the tube.

Saw handle for bi-metal saw blade

Ergonomic saw handle for flexible bi-metal saw blades. Specially designed for cutting at difficult-to-access places. Optionally, can be used with or without a guide bracket. Various application options (pistol handle and long model). Saw blades can be fitted and replaced without tools.

• Black handle made of high-quality plastic with a pleasant surface
• Galvanised guide bracket
• Knurled nut with a good grip for reliable holding of the saw blade
• Including 300mm bi-metal saw blade 24 Z / inch
